

Exercise 2c) elaboration

Explain the different properties of graphite and diamond using the structures. Think about it on your own at first and then discuss your results in the group.

Notes

Elaboration after the tasks

Watch the interviews with Robert F. Curl Jr. (3:39 – 5:09) and Karl Ziegler (7:39 – 8:45) again.

What is your impression about the way these Nobel laureates and their teams work? Discuss this with your classmates.
