

# LINDAU NOBEL LAUREATE MEETINGS

## 7<sup>th</sup> Lindau Meeting on Economic Sciences

### Programme

23 – 27 August 2022

#### Sessions

Scientific sessions,  
social functions,  
partner events,  
networking breaks

#### Speakers

Laureates, young  
economists, invited  
experts,  
moderators

#### Access

Guidance to all  
online viewing  
and participation  
options

#### Background

Everything else  
there is to know  
for a successful  
meeting

## ON-SITE

Access to sessions may depend on participant type and pre-registration.

Please see the **on-site programme (p. 8)** and your **personal agenda** for details.

Where Q&A is offered, you may use microphones provided or ask your questions online at [qa.lindau-nobel.org](http://qa.lindau-nobel.org)

## ONLINE

Online participation and interaction are available for registered participants.

Please see the **online programme (p. 10)** for details.

You can follow the programme and ask questions at [live.lindau-nobel.org](http://live.lindau-nobel.org)

## PUBLIC

Selected sessions are available for the public.

Please see the **online programme (p. 10)** for details.

The public programme is available at [public.lindau-nobel.org](http://public.lindau-nobel.org)

# Welcome

Pleasure to meet you. Finally! After two years of online only encounters, we are excited to welcome you to the beautiful island of Lindau. This is where the “Lindau spirit” happens. This is where the “Educate. Inspire. Connect.” is meant to take place.

Together, let us celebrate the 7<sup>th</sup> Lindau Meeting on Economic Sciences. Bridging borders, nationalities, ethnicities, languages, religions in times where it is needed, possibly more than ever before. Let us use this gathering in the sense of Alfred Nobel: “For the benefit of humankind”.

Richard H.  
Thaler

Lars Peter  
Hansen

Robert B.  
Wilson

James J.  
Heckman

Robert C.  
Merton

Finn E.  
Kydlund

Daniel L.

## 34 MEETING PROGRAMME FRIDAY AUGUST 26

### Science Walks

16.15

#### Science Walks

Meeting Point: main entrance of the Inselhalle.

Access: Laureates, young economists with online pre-registration only.

Please see your personal agenda for details

### Social Event

19.00 – 22.00

Inselhalle

#### Bavarian Evening

*hosted by the Free State of Bavaria*

**Welcome**

*Countess Bettina Bernadotte, President of the Council*

**Folk Dance**

*Trachtenverein Altusried*

**Bavarian Dinner**

### Online Event

19.30 – 22.00

#### Interactive Bavarian Evening with Brian Malow

See [live.lindau-nobel.org](https://live.lindau-nobel.org) for details.

### KEY VISUAL

Our cover art features

Leah Meisterlin's "Remapping John Snow's Cholera Map, London, 1854", thus referring to natural experiments – a concept for which David Card, Joshua Angrist and Guido Imbens were awarded the Sveriges Riksbank Prize in Economic Sciences in Memory of Alfred Nobel 2021.

Visit [leahmeisterlin.com/remappingsnow](https://leahmeisterlin.com/remappingsnow) for more.

**Blast from the Past**  
BAVARIAN  
BREAKFAST 1953

70 years ago, the Bavarian Evening was actually a Bavarian Breakfast. Until today, a decent amount of beer and “weisswurst” are common during such a breakfast, as demonstrated in this picture by Nobel Laureate Hideki Yukawa and his wife Sumi.

**Social Event**

08.15  
MS Sonnenkönigin

**Boat Trip to Mainau Island**

Note for all participants departing on Saturday and not returning to their hotel: no luggage may be taken on the boat. Two luggage lorries will be available at Lindau Harbour; please place your luggage accordingly.

Lorry 1 to “Mainau Island”: for those not returning to Lindau. Pick-up is at main entrance on Mainau Island until 17.00 hrs.

Lorry 2 to “Lindau”: for those leaving directly after their return to Lindau. Pick-up is at Lindau Harbour immediately after arrival.

07.30 – 08.00

16.30  
Mainau Harbour

**Departure (Mainau)**

18.45  
Lindau Harbour

**Arrival (Lindau)**

A large, modern glass-walled boat is docked at a pier. The boat has multiple levels and is filled with people. In the background, there is a historic building with a tall, pointed tower. The scene is set during sunset or sunrise, with a warm, golden light. A large, semi-transparent purple circle is overlaid on the left side of the image, containing text.

## Now or Never CONNECT

The boat rides on the closing day are the perfect opportunity to connect to your peers. They are all there.

Also, join the Lindau Alumni Network to stay in touch and keep the Lindau Spirit.

### The Meetings

The Lindau Nobel Laureate Meetings – established in 1951: more than 70 years ago – provide a globally recognised forum for exchange between Nobel Laureates and young scientists. They inspire scientific generations and build sustainable networks of young scientists around the world.

The original idea of the meetings goes back to the two Lindau physicians Dr. Franz Karl Hein and Professor Dr. Gustav Wilhelm Parade as well as Count Lennart Bernadotte af Wisborg, a member of the Swedish royal family who quickly became the spiritus rector of the Lindau Meetings. It was them who recognised very early the significance of the meetings for the reconciliation of the people of post-war Europe and thus systematically developed them to an international forum for the exchange of knowledge between nations, cultures and disciplines.

### The Organisers

The Council for the Lindau Nobel Laureate Meetings and the Foundation Lindau Nobel Laureate Meetings organise the annual one-week events; economics meetings are held every third year. The executive secretariat is responsible for planning and realisation. Countess Bettina Bernadotte af Wisborg is president of the Council, which sets the course for the Lindau Meetings' concept and programme. Internationally accredited scientists from the fields of medicine, physics, chemistry and the economic sciences are members of the Council. The work of the Council benefits from the commitment of the secretaries of the assemblies responsible for awarding the Nobel Prizes, which are represented in the Council.

The Foundation was established in the year 2000 by the Council and the Bernadotte family on the initiative of 50 Laureates. Following Prof. Dr. h.c. Wolfgang Schürer, since 2016 Prof. Dr. Jürgen Kluge serves as the chairman of the board of the Foundation. Joint initiatives regarding the advancement of the Lindau Meetings and the establishment of an international network of academic partners are key priorities in addition to ensuring sustainable funding.

The Lindau Meetings enjoy widespread support. More than 350 Nobel Laureates are members of the Founders' Assembly of the Foundation and demonstrate – through their membership and their engagement with the Lindau Spirit – their support for the mission of the Lindau Nobel Laureate Meetings.

Personalities from the worlds of science, politics and industry have been inaugurated into the Foundation's Honorary Senate in recognition of the special commitment they have shown towards scientific excellence and the promotion of young scientists.

### Funding of the Lindau Nobel Laureate Meetings

The Lindau Nobel Laureate Meetings are made possible thanks to the support received from supranational, national and state bodies, companies, associations and private patrons. International companies, selected foundations, associations and private maecenates assure the financial basis for the Lindau Meetings by making donations to the assets of the Foundation Lindau Nobel Laureate Meetings. Interest earned on the endowment, plus additional annual contributions by benefactors cover the budget of the Lindau Meetings. Donations in kind also play an important role in raising the professional level of the meetings. Not least, the success of the Lindau Meetings can also be attributed to the commitment shown by the Laureates, members of the Council and the board of the Foundation during the preparation, realisation and evaluation of the meetings. A full list of supporters is enclosed in this programme.

### The Academic Partners Network

The Lindau Nobel Laureate Meetings interact closely with a global network of academic partners to identify highly-talented young scientists/economists and to nominate them for participation. Partners include national academies of science, ministries, research institutions, top-ranking universities, foundations and international scientific organisations. Without this support, the Lindau Nobel Laureate Meetings would not be able to identify and invite the most gifted scientific talents worldwide.

The world's best young scientists of tomorrow submit applications to attend the Lindau Nobel Laureate Meetings. An international, multi-stage selection process guarantees that the scientific elite of the future is able to gather with the Laureates in Lindau. Every year, several thousand young scientists apply worldwide.

## 44 ABOUT THE MEETINGS

### Programme Session Types

The formats of the varied scientific programme are based on the principle of dialogue and to activate the exchange of knowledge, ideas, and experience between and among Laureates and young economists.

#### *Lectures*

Lectures are given by Laureates only. They may choose a topic of their liking – be it their Nobel Prize research, be it something else.

#### *Panel Discussions*

Several panellists jointly discuss one topic. Up to half of the time is dedicated to Q&A with the audience.

#### *Next Gen Economics Sessions*

Oral presentations by young economists. Each presentation is 6-10 minutes, followed by a short Q&A.

#### *Workouts*

Need a break? Join our workouts.

#### *Partner Events & Partner Breakfasts*

Partners of the Lindau Meetings are invited to organise side events outside the core programme, e.g., in the mornings as Partner Breakfasts. As for the content of the presentations, several types are possible, e.g. panel discussion, world café, normal dinner, pitch presentations, etc. Attendance requires online pre-registration.

#### *Science Walks*

During a Science Walk, Laureates spend their time exploring picturesque spots in Lindau and its surroundings together with up to ten young economists. It is yet another opportunity for personal and informal discussions.

#### *Laureate Lunches*

During a Laureate Lunch, a Laureate sits together with up to ten young economists at a local restaurant in Lindau to talk informally over lunch.

## THE LINDAU GUIDELINES

**01 Adopt an Ethical Code**

**02 Cooperate Globally on Global Problems**

**03 Share Knowledge**

**04 Publish Results Open Access**

**05 Publish Data to Repositories**

**06 Work Transparently & Truthfully**

**07 Change Reward Systems**

**08 Support All Talent**

**09 Communicate to Society**

### Bus: How to Read the Timetable

The timetable available at the front desk shows operating hours and departure times for all five lines and both directions. The first three columns (earliest, Saturday, Sunday) indicate when the earliest bus runs from each stop, while the fourth column shows the last service. The next column (every 30 min) shows when buses depart between the first and last service. Example: 24/54 means that this bus departs from the station every hour at minute 24 and 54 (e.g., at 15.24 hrs and 15.54 hrs). The two rightmost columns provide times for the night service (Friday/Saturday only).

### Dietary Needs

Should you have any dietary needs, please make sure to check with our service desk or the catering service.

### Medical Assistance

- In case of urgent, life-threatening medical issues, call 112 and/or contact any member of our staff.
- In case of urgent, but not life-threatening medical issues, please contact the paramedic teams on site or see our service desk.
- In case of non-urgent medical issues, please see our service desk.

### Code of Conduct

The meetings have implemented a code of conduct, detailing appropriate and inappropriate behaviour. Please make sure to adhere to it. See [code.lindau-nobel.org](http://code.lindau-nobel.org) for details.

If you feel that the meetings' code of conduct has been violated in a substantial way, you may contact any of the chairpersons, front desk staff, or write to [coc-violation@lindau-nobel.org](mailto:coc-violation@lindau-nobel.org).

## **RESPONSIBILITY**

The Lindau Laureate Meetings and its boards, team and staff are working hard to leave a positive footprint.

Since 2020, we are a climate-positive event.

Encouraged by the young scientists' initiative IDEA, we are also continuously improving aspects of inclusion and diversity.

Read more about the details at [www.lindau-nobel.org/responsibility](http://www.lindau-nobel.org/responsibility)
