

Scientific Literacy – What is Behind this Expression?

Tasks

1. Using the internet, research the term scientific literacy and describe its meaning.
1. In pairs, agree on two topics (e.g. aspects of climate change) that are discussed in the media and for which a basic understanding of science is useful.

Afterwards, summarise your suggestions in full, giving reasons why a basic understanding of science is important.

2. Look at the image with different headlines on the Corona pandemic.
